Re Item V

**Reasoned statement with regard to novelty, inventive step or industrial applicability;
citations and explanations supporting such statement**

1. Reference is made to the following document:
D1: US 2003/157466 A1 (CAMPBELL ROBERT B) 21 August 2003 (2003-08-21)
2. The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of independent claims 1 and 13 is not new in the sense of Article 33(2) PCT.

The document D1 discloses (the references in parentheses applying to this document):

a map for hilly area in which the topography of the area is represented graphically on at least one side of a foldable sheet (see D1, page 1, paragraph 10 and 17, the sheet having folds therein (see D1, see the horizontal dotted lines in fig. 2) whereby the sheet can be formed into a three dimensional shape representative of the topography of said area with features represented graphically being substantially coincident with topographical feature formed in the three dimensional shaped sheet when the map is in a partially unfolded condition for reading.

The corresponding method claim can also be read from D1.

3. It seems that the combination of the features of dependent claims is neither known from, nor rendered obvious by, the available prior art.
4. Any information the applicant may wish to submit concerning the subject-matter of the invention, for example further details of its advantages or of the problem it solves, and for which there is no basis in the application as filed, should be confined to the letter of reply and not be incorporated into the application (Article 34(2)(b) PCT).

**INTERNATIONAL PRELIMINARY
REPORT ON PATENTABILITY
(SEPARATE SHEET)**

International application No.

PCT/GB2004/004426

The attention of the Applicant is drawn to the fact that the application may not be amended in such a way that it contains subject-matter which extends beyond the content of the application as filed, Article 19 PCT.

If it is not obvious from which parts of the original application documents the necessary amendments to independent claim/s are derived, the Applicant should present appropriate information.

- 5.1 Contrary to the requirements of Rule 5.1(a)(ii) PCT, the relevant background art disclosed in the document D1 is not mentioned in the description, nor is this document identified therein.
- 5.2 The description should be put in conformity with the claims as required by Rule 5.1(a)(iii) PCT.
- 5.3 Independent claims are not in the two-part form in accordance with Rule 6.3(b) PCT. If, however, the applicant is of the opinion that the two-part form would be inappropriate, then reasons therefor should be provided in the letter of reply. In addition, the applicant should ensure that it is clear from the description which features of the subject-matter of claims are already known in combination from the prior art document (see the PCT Guidelines, III-2.3a).
- 5.4 The features of the claims are not provided with reference signs placed in parentheses (Rule 6.2(b) PCT).
